PLAN. Each person, at the time of insuring pays a membership fee; this is one dollar for every hundred dollars insured, and when once paid never has to be paid again.

On the 1st of January of each year an annual due is required to help pay the running expenses of the Association. This is the only expense, except what is required to pay the actual losses by death.

Mortuary assessments, collected on the death of members, are rated according to the age of the person, and the amount assured. The following is the

TABLE OF RATES.

Membership Fee, (\$1,000 Insurance,) \$10. Annual Due each year, \$2 10.

THE TEMPERANCE MUTUAL BENEFIT ASSOCIATION.

GENERAL CLASS—Our plan of assurance for total abstainers has been so well received by the masses of the people, that we have been repeatedly solicited by a large and respectable class of citizens to introduce a second class that should not be strictly total abstinence. In accordance with these requests a General Class was established about two years ago. During 1877, it has grown quite as rapidly as the total abstinence class.

THE PLAN OF ASSURANCE IS THE SAME AS IN THE TOTAL ABSTINENCE CLASS. The business of each, however, will be kept entirely separate, as much as though they were two distinct organizations. Both, however, will be benefited by running them in the same connection. The expenses of each will be lessened nearly one half.

HOLBROOK'S STEAM PRINTERY, 11 MECHANIC STREET.

MAPS OF THE CITY AT 11 MECHANIC STREET,

Entered according to the Act of Congress in the year 1872, by A. STEPHEN HOLBROOK,
in the office of the Librarian of Congress at Washington

P R E F A C E .

THIS season marks an increase in population. Business wears a more cheerful aspect and the future is full of promise. Several new enterprises have sprung up, and new interests have come to increase the prosperity and wealth of our City.

That Congress has taken the initiatory in the improvement of our navigable waters, is a cause of congratulation. Newark, with its area of about 18 square miles and 24 miles of river front its railroads, its proximity to New York, its great facilities for manufacturing, is beginning to attract increased attention, and we trust annually to record new enterprises, aside from those arising from the inventive genius in our midst which adds so much to the renown of Newark.

We think it well to reproduce matters in connection with this work that those unacquainted with its details may know of its several departments and the method of their arrangement.

The STREET GUIDE of Newark and Harrison is the key to the work. The DIRECTORY OF NAMES embraces the individual names, with occupation and residence, those in business, with place of business and residence; the COPARTNERSHIPS, with individual names comprising the firms, the various corporations and other interests relating to the names. The BUSINESS DIRECTORY (p. 985) embraces the various branches of business classified. The APPENDIX OF INFORMATION (p. 873), consisting of 100 pp., embraces the City, State, Federal Institutions, New York and other matters of interest. The DIRECTORY OF ADVERTISING, each advertisement of which is pagged and referred to throughout the work. The TABLE OF CONTENTS is on p. 4. The ADVERTISEMENTS are indexed (p. vi to xvii) and classified under business headings alphabetically. In the INDEX TO BUSINESS DIRECTORY (p. xviii.) are the various business headings alphabetically arranged. Also is added a Counting House Almanac and a Map of Newark, corrected especially for this work up to the present time.

At the commencement of the publication of this work, in order to have uniformity, the present size was adopted. Every year the matter increases, is more condensed in form, and subscribers thus receive annually a larger amount of matter.

In the compilation of names, the importance of recording every citizen of suitable age, with full and reliable information relative thereto, is kept uppermost in mind. Every name, from year to year, is made subject of inquiry, and every effort is exercised to render the work valuable for future as well as for present reference; yet with all the care and expense attending therewith, obstacles still exist. A prominent one, to which we again refer, is the difference in dates of moving. Many vacant houses are not occupied until May 1st, after our canvass is made. Many arrive in the city and others remove after the work is in print. To meet this discrepancy corrections are made until all the matter has gone through the press. A list of removals and corrections will be found (p. 871*) at the end of names for those changes too late to be noted in the body of the work; and further, the usual dread of taxation, jury duty, creditors and other uncertainties lead many to shun the Directory. The Directory is expected, however, to make amends for all short comings. In some boarding houses a Directory is taken for reference, and unless sufficient evidence is adduced of the arrival in the city after the work is published, their application for board is in vain. In fine, no pains or expense is spared to have a reliable work, and the co operation of citizens is invited, and we will be glad to learn of anything tending to that end.

Holbrook's Map of Newark, with the latest corrections similar to that accompanying this work, may be found at the book stores, or at the Directory Office, No. 11 Mechanic Street.

HENRY N. SAYRE,

Manufacturer of the Celebrated Prepared

Windsor Lime,

FOR WHITEWASHING AND DISINFECTING PURPOSES,

This Lime being made from pure Carbonate of Lime Rock, free from Magnesia, is particularly calculated for Whitewashing and Deodorizing; the great purity and strength of the lime makes it adhere to walls more perfectly; never scales, and runs of much less than any other lime in the country. Being unslacked and ground very fine it can readily be applied for the purpose of Disinfecting. It needs only to be tried to satisfy all of its peculiar merits for both objects. It is put up in air-tight cans of three pounds, sufficient to whitewash nine hundred square feet.

This Society makes a specialty of the yearly renewable life policy, which was originated by SHEPPARD HOMANS, Esq., (for many years the Actuary of the Mutual Life Insurance Co., of New York.)

By insuring under this plan the insured "Pays as he goes—Gets what he buys—and stops or continues as he chooses."

These policies are simple, safe and just to all. They extend over the whole life. They provide the protection of life insurance as long as it is needed, at actual cost. Like fire insurance policies, the premiums provide for the risk of the current year alone.

They call for less outlay for a long series of years than any others. The policy-holder never has at risk more than the actual cost of one year's insurance.

By these policies all the dangers and defects of the old plans are avoided, and life insurance is made acceptable by its simplicity, safety and economy.

The Society also issues premium uniform policies, for amounts from \$250 and upwards, on which the premiums may be paid in monthly installments

SHEPPARD HOMANS, President and Actuary.

These Courts have taken the place of Justice Courts within the city limits.

In criminal matters they have no jurisdiction, but in civil matters their jurisdiction is the same that justices of the peace formerly had, being co-extensive with the limits of Essex County. By act of 1878, the jurisdiction was increased to \$200.

They are each presided over by a Judge holding office for five years, and who is required to be a Counsellor at Law. Salary, \$3000.

All fees are paid into the City Treasury, the Judge receiving no part of them.

1. On the breaking out of a fire, notice should be immediately communicated to the nearest alarm box keys of which are always in the hands of the police and responsible persons in the vicinity of boxes.

2. Key holders, upon the discovery, or positive information of a fire, will unlock the box pull down the slide which shows the words, *and let go quick*. This gives the desired alarm all over the city, repeating itself four times.

3. Never signal for a fire seen at a distance, never touch the hook except to give the alarm of fire. Be sure the box is locked before leaving it. Give an alarm for no cause other than an actual fire. *do not give an alarm for a chimney*.

4. Owners and occupants of buildings are requested to inform themselves of the location of signal boxes near their property, also where the keys are kept. Be sure the alarm is properly given—no signal stroke of the house gong is not given for an alarm of fire.

5. Second alarms for the same fire can only be given by the Chief Engineer, or one of his assistants.

6. Alarms will be sounded on the alarm bells thus: For box Thirty two three strokes—1—2—and a pause, then two strokes—1—1, a longer pause and repeating. Alarms for other numbers are given in like manner.

7. If a second alarm is to be sent out, it will be preceded by 3 blows upon the telegraph, a pause of 2 seconds, then the box will be pulled—the Bell Ringer will strike 3 blows upon the fire bell in quick succession, a pause of 3 seconds, then strike the box.

8. After the first or second alarm has been sent out and extra engines are wanted, their number will be called once and the Bell Ringer will strike the number of the engine that is wanted 3 times on the fire bell.

9. If a hose tender is wanted without the engine, the number of the company to which said tender is attached will be called twice.

10. If a third alarm is to be sent out it will be same as the second with the exception that the Bell Ringer will strike a general alarm upon the fire bell.

ESTABLISHED 1880.

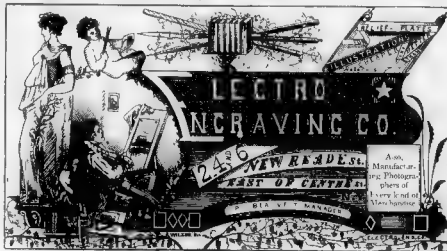

New Method of Engraving.

(BLAUVELT'S PROCESS.)

The ELECTRO, or Type Metal Relief Plates are the best substitute for wood cuts, and at much less cost. They are made by Photo-Chemical means, are mounted on blocks type high, and are made ready for use on any printing press, will wear longer than the common stereotype, and the lines are as deep, as even, and sharp as they can possibly be cut by hand.

REFERENCES.

Our Plates are in use by many of the principal Manufacturers and Publishers throughout the United States.
